

Maybe baby

Contemporary baby-furniture manufacturer Milk Deco has won this year's Most Innovative Design Award at Jo'burg's Baba Indaba Expo. 'We want to create unique nurseries that are baby-friendly and affordable. We also do our best to create environmentally friendly designs,' says Creative Director Candice Brophy. One of Milk Deco's popular designs is The Beeno cot, which has soft curves to cradle the sleeping baby, and since it has no harsh corners, there's no chance of Baby getting hurt. A range of bright colours and woods are available to suit any nursery theme. www.milkdeco.co.za
